METAL SURFACE PROTECTION

EDOL 2IN1

STAINLESS STEEL CLEANER AND CARETAKER IN ONE

PROPERTIES EDOL 2IN1 is a ready-to-use stainless steel cleaner and care product for all aluminium, anodised aluminium, anodised, stainless steel and non-ferrous metal surfaces. It removes tarnish from surfaces and appliances as well as fingerprints, water stains and other dirt. In addition EDOL 2IN1 restores the original shine to cleaned surfaces and leaves behind a caring film that does not harden even after ageing. Repeated applications therefore do not lead to excessive care film build-up. Treat treated surfaces only with EDOL 2IN1.

- With pearling effect
- Cleans and cares in one step
- Removes even stubborn dirt
- Prevents rapid resoiling with regular use

APPLICATION AREAS

Cleaning and care of aluminium, anodised, stainless steel and non-ferrous metal surfaces indoors. Ideal for use in food processing plants.

APPLICATION

EDOL 2IN1 is ready for use. Remove coarse dirt before cleaning.

Apply EDOL2IN1 to the dry surface and spread evenly with a microfiber cloth to absorb the dirt. Then polish with a dry, clean microfiber cloth. Or spray EDOL 2IN1 on a dry microfiber cloth and clean/maintain the surface with it. **INGREDIENTS** White oil, solvent

cycloalkanes, <0.03% aromatics, lubricating oils (petroleum), C15-30, Hydrotreated neutral
